250	\$150
500	\$150
1,000	\$150
2,000	\$250
2,500	\$300
5,000	\$600
8,000	\$1,000
10,000	\$1,200

A clear local scope

Reference prices for accessible local residential routes and a flexible agreed window. One ready-to-distribute DL, A6 or A5 flyer up to 20 g per eligible letterbox. Includes route planning, GPS route records, progress updates and a completion summary. Printing, design, folding and assembly are excluded.

Local travel from Hurlstone Park: up to 30 km return and one hour return per planned attendance. Agree the actual area, attendance plan, days, time windows and any hard deadline before booking. Evening or weekend delivery is included only when expressly agreed. Agreed handover at the route start or reception point is included.

Tailored to the route

Spread-out houses, long approaches, slow or restricted access, commercial premises, distant areas, unusual material, separate pickup, extra journeys and urgent deadlines receive a specific written quote. Matched shared delivery and repeat campaigns are quoted individually. No automatic extra fee applies to an accepted scope.

How the guide works

Local reference: \$120 per 1,000, rounded up to \$50; minimum campaign \$150, including quantities below 250. Intermediate quantities use the same rule, subject to route review. Above 10,000: quote. Previously accepted quotations keep their agreed terms.

Accessible letterboxes accepting advertising only. Respect no-advertising signs; exclude unsafe locations and restricted buildings without permission. Quantities do not promise every address in a suburb. GPS shows the route, not each deposit. No sales or response result is guaranteed.

Send your quantity, format, area, handover and dates for a fixed written quote confirming the final total, payment milestones, changes, weather, cancellation, refunds and remaining stock. Statutory consumer rights remain unaffected.
